"I would like to take this opportunity to thank you and your team at Universal Solutions. Our group at the Marine Corps League enrolled for your services over the last few months. Several of our members had some major problems with medical billing issues being over-charged, double billed by hospitals and doctors, some even being threatened with collections. Your staff embraced these severe cases and acted quickly to rectify the problems.

Prior to enrollment, we were not sure just how much service your company could provide in assisting us with these issues. When our member told us that the collection calls had stopped and that he was contacted by his insurance company, being told his bill was settled, we were all truly impressed.

I have since passed your company information to several people I know who are not in our organization; I believe you will be able to help them out as well.

Thank you for taking care of our members and we look forward to having your continued service."

"To all Universal Staff,

*I wanted to take a moment to thank you for your help. I have been fighting for years trying to resolve these problems with ***** hospital and the other 3 doctors who were billing me. My husband and I figured we spent well over 50 hours of our time over 2 1/2 years to get nowhere and your staff resolved our issues in less than 3 weeks. Thank you for all you do!"*
